NUTRITION TIP OF THE WEEK FROM THE KSC FITNESS CENTERS: Managing stress. We live in a stressful environment, and we often eat as a way of dealing with stress or as a way to calm ourselves. Food can be a displacement activity. The following are some questions to consider if you eat to deal with stress:

If you find that you eat because of stress, try the following:

- Take a short relaxation break.
- Take time to stop and think about what is really bothering you and how you could deal with it.
- Change what you're doing. Take a short walk down the hall or around the block.
- Call a friend.
- If you are truly hungry, reach for a healthy meal or snack. Focus on the experience of eating and enjoy your food.

INSPECTOR GENERAL: The Office of Criminal Investigations (OCI) is the investigative arm of the NASA Inspector General (IG). The OCI is an independent entity and reports directly to Robert Cobb, the NASA IG, in Washington D.C. The primary mission of this component is to conduct criminal and civil investigations of reported or suspected fraudulent acts by employees, contractors, and others relating to the administration of NASA contracts and programs. Although emphasis is placed on major procurement fraud, (particularly allegations of defective/substandard parts, mischarging, kickbacks, bid rigging, and research fraud), investigations are also conducted of theft, conflict of interest, environmental and hazardous waste violations, health care fraud, and computer related crimes. OCI also provides fraud briefings for Government and contractor employees that are designed to highlight potential risks concerning fraud and related matters. Suspected violations can be reported by calling 867-4714 locally, the toll free Hotline at 1-800-424-9183, or by writing NASA Inspector General, P. O. Box 23089, L'Enfant Plaza Station, Washington, D.C. 20024. The OIG Cyber-Hotline can be accessed at www.hq.nasa.gov/office/oig/hq. (OIG)

EMPLOYEES PLANNING FOR RETIREMENT: To make tentative annuity computations, verify creditable service, and process an application for retirement, employees considering retirement should assure that all military and civilian service has been properly documented in their personnel records. Although dates of military service may have been previously recorded and verified, these dates should be reverified so there will be no delay in the receipt of annuity checks. Employees who have had active military service should submit to Kathleen Ellis or Lisa Fowler, Retirement Counselors, Personnel Office Benefits Team (BA-B), copies of their military discharge papers, DD 214, or other documents showing the beginning and ending dates of active service. Employees who do not ensure that all active duty military service is properly documented may experience a delay in the receipt of full annuity payments from OPM upon retirement from civil service. Contact Kathleen Ellis, 867-2002 or Lisa Fowler, 867-1883, Headquarters, Room 2506. (BA-B)

FEDERAL EMPLOYEE HEALTH BENEFITS FOR MILITARY RETIREES: CHAMPUS coverage for military retirees is automatically transferred from CHAMPUS to Medicare coverage upon attaining the Medicare eligibility, at age 65. Employees have 31 days from the date of loss of CHAMPUS to enroll in a Federal Employees Health Benefit (FEHB) plan. Military retirees who are thinking about retiring from civilian service before reaching Medicare eligibility are reminded: to have FEHB coverage as retiree, an employee must be enrolled at the time of retirement; to insure coverage, they should enroll in an FEHB plan that takes effect before the retirement date elected. To keep FEHB after retirement, employees must be enrolled for at least 5 years; and coverage under CHAMPUS counts towards eligibility to carry FEHB into retirement. Questions regarding health benefits should be referred to Kathleen Ellis, 867-2002 or Lisa Fowler, 867-1883, Benefits Team, Personnel Office, Headquarters Building, Room 2506. (BA-B)

SECURITY NOTICE: Florida State Statute 316.1975, Unattended Motor Vehicles, states: "no person driving or in charge of any motor vehicle except a licensed delivery truck, or other delivery vehicle while making deliveries, shall permit it to stand unattended without first stopping the engine, locking the ignition, and removing the key." Do not leave the engine running in your unattended vehicle, at any time. (TA-E2)

CUT LOADS OF ENERGY WHILE DOING THE LAUNDRY: It's easy to cut your energy costs for laundry. About 80-85% of the energy used for washing clothes is used to heat the water. You can reduce this cost by using less water by washing full loads and using cooler water and cold-water detergents - switching the temperature setting from hot to warm cuts a load's energy use in half. You can reduce drying costs as well: clean the lint filter after every load to improve air circulation, and don't over-dry clothes. Use the cool-down cycle to allow clothes to finish drying with residual heat. Also, periodically inspect your dryer vent to ensure it's not blocked. If you are in the market for a new washer or dryer, look for the Energy Star and read EnergyGuide labels. For more tips on saving energy at home, visit <http://www.energysavers.gov>.

FEDERALLY EMPLOYED WOMEN (FEW): The Space Coast Chapter of Federally Employed Women (FEW) is awarding scholarships for high school and/or college students who are currently attending college or enrolling in the Fall semester 2003. WIRELESS (CELLULAR) PHONES: All KSC personnel should note that effective October 2, 2001, NASA policy prohibits the use of hand-held wireless (cellular) phones by KSC employees when driving motor vehicles owned, leased, or rented by the Federal Government. This policy will be incorporated into the NASA Safety Manual, NPG 8715.3. (TA-E1)
